

MUNICIPALITY	TOTAL GRANT AWARD	PROJECT DETAILS
Abington/Rockland	\$77,900	For variable frequency drives at the Hannigan and Great Sandy Bottom drinking water treatment facilities.
Andover	\$20,000	For a variable frequency drive at the Andover drinking water treatment facility.
Andover/Lawrence/Methuen/North Andover	\$200,000	For a pump, motor and variable frequency drive at the Riverside wastewater pumping station, part of Greater Lawrence Sanitary District.
Beverly/Danvers/Marblehead/Peabody/Salem	\$200,000	For a combined heat and power unit at the South Essex Sewerage District in Salem to provide heat and dehumidification for odor control during wastewater treatment.
Cambridge	\$200,000	For a variable frequency drive and a 170 kW solar photovoltaic system at the Walter J. Sullivan water purification facility.

Chicopee	\$99,000	For an oxygen vaporization system used in aeration for wastewater treatment at the Chicopee water pollution control facility.
Deerfield	\$25,800	For motors, insulation, lighting, exterior lighting and a 36.5 kW solar photovoltaic system at the Old Deerfield wastewater treatment facility.
Douglas	\$12,100	For pumps, motors and variable frequency drives at the drinking water booster station and Gilboa wastewater pumping stations and for lighting at the Douglas wastewater treatment facility.
Egremont	\$6,100	For a 9.9 kW solar photovoltaic system at the Egremont drinking water treatment facility.

Greenfield	\$33,900	For a variable frequency drive at the Greenfield water pollution control facility and for pumps and variable frequency drives at the Millbrook drinking water wells.
Holden	\$9,000	For a variable frequency drive at the Quinapoxet drinking water wells and interior and exterior lighting retrofits at various water and wastewater pumping facilities.
Hudson	\$59,400	For replacement of the main lift pump system at the Hudson wastewater treatment facility.
Marlborough	\$26,300	For a new boiler at the Millham water treatment facility.

Medfield	\$180,000	For a 200 kW solar photovoltaic system at the Medfield wastewater treatment facility.
Middleborough	\$191,000	For fine bubble aeration, variable frequency drives, controls upgrades and building insulation at the Middleborough wastewater treatment facility and pumps, motors and variable frequency drives at the Middleborough water treatment facility.
Millis	\$29,800	To replace the pump and clean the well at one of Millis' drinking water wells.
Pepperell	\$49,600	For a pump, aeration blower modifications and dissolved oxygen probes at the Pepperell wastewater treatment facility.

Rockport	\$80,000	For a variable frequency drive at Rockport's low lift drinking water pumping station and lighting retrofits at the Rockport water filtration and the wastewater treatment plants.
Southbridge	\$64,400	For variable frequency drives at the Southbridge drinking water treatment facility and pumps, motors and variable frequency drives at the Southbridge wastewater treatment facility.
Stockbridge	\$39,000	For a water-source heat pump that uses the drinking water as a source of energy to provide heating to the Stockbridge drinking water treatment facility.
Tyngsborough	\$88,100	For a pump and motor at Tyngsborough's Mascuppic wastewater pumping station.

Woburn	\$45,000	For exterior LED lighting at the Woburn water treatment plant complex.
